Education

- 2018 – 2023 **Bachelor of Science – BS, Social Sciences, University of Central Florida**
Relevant courses: Scope and Methods of Political Science, Object Oriented Programming, Ethnographic Methods

Work Experience

- Feb 2024 – **Software Engineer, Capital One**
Present Completed two TDP rotations in Cyber Tech. Implemented real-time validation feedback for file uploads and led the development of an ILM portal for custom authorization plugins within Identity and Access Management. Built an in-house heartbeat monitoring solution replacing Grafana dashboards for cloud asset logging within Detection and Mitigation.
- Jan 2020 – **Research Intern, Various Companies**
Aug 2023 Worked at places including the PMBF Program, Progressive Turnout Project, and The COVID-19 Tracking Project at The Atlantic. Authored a CFR in-brief on Latin American vaccination efforts. Co-wrote American Rescue Plan reports on small business impacts with Opportunity Wisconsin. Trained ML models for donation pattern analysis at Swing Left. Researched digital public infrastructure at New America. Conducted Fortune 500 market research at KRC Research. Automated workflows and audited internal tools at ActBlue.

Research Experience

- Jun 2025 – **External Collaborator, UC San Diego**, Studied agentic coding workflows of experienced developers through observational studies and a large-scale survey.
Present Advised by Haijun Xia
- Aug 2020 – **Undergraduate Researcher, University of Central Florida**, Conducted interdisciplinary research in applied sociology, human-computer interaction, and computational social science. Enhanced ML algorithms for adolescent online safety through novel data annotation and text summarization techniques. Analyzed social policy, public health, and crime in the Greater Orlando area. Maintaining CoupCast and examined anti-coup strategies in North and West Africa.
May 2023 Advised by Amy Donley, Pamela Wisniewski, and Jonathan Powell
- June 2022 – **REU Participant, XR Access**, Integrated spatial interactions into desktop screen readers and developed prototypes that explored the design space of assistive technologies within the Computer-Enabled Abilities Laboratory at Columbia University.
Aug 2022 Advised by Brian Smith

Jun 2021 – **REU Participant**, *University of Washington Tacoma*, Identified communities of
Aug 2021 interest in Mecklenburg county with topological data analysis algorithms to better
understand gerrymandering and political redistricting.
Advised by Jim and Courtney Thatcher

Papers

- 2024 Teng, Y., Courtien, C., Rios, D. A., Tseng, Y. M., Gibson, J., Aziz, M., Vaish, R., **Reyna, A.**, & Smith, B. A. (2024). Help Supporters: Exploring the Design Space of Assistive Technologies to Support Face-to-Face Help Between Blind and Sighted Strangers. *In Proceedings of the 2024 CHI Conference on Human Factors in Computing Systems (CHI '24)*.
- 2023 Chheda-Kothary, A., Rios, D. A., Smith, K. S., Zhang, C., **Reyna, A.**, & Smith, B. A. (2023). Understanding Blind and Low Vision Users' Attitudes Towards Spatial Interactions in Desktop Screen Readers. *In Proceedings of the 2023 ACM SIGACCESS Conference on Computers and Accessibility (ASSETS '23)*.

Articles

- 2023 **Reyna, A.** (2023, March). The Threat of Artificial Intelligence Is Not Just Real, It's Here. *The Loop*.
- 2022 **Reyna, A.** (2022, October). Interdisciplinary Social Science and the Limits of Quantitative Research. *The Loop*.
- Hammou, S. & **Reyna, A.** (2022, July). Anti-Coup Strategies Should Address Civilian Coup Allies. *Just Security*.
- Reyna, A.** & Hammou, S. (2022, June). Reflecting on Coup Risk in Mali. *Political Violence at a Glance*.
- Reyna, A.** (2022, May). Integrated Data in the United States: A Look at New York's Workforce Portal. *New America*.
- 2021 **Reyna, A.** (2021, May). Latin America's Vaccination Efforts: What to Know. *Council on Foreign Relations*.

Talks

- 2022 Wood, A., **Reyna, A.**, Konishi, A., Retchless, D., & Thatcher, J. (2022, October). Cartographic Limits and Interdisciplinary Science: Maps and Mathematics in Pursuit of Social Justice. *Presented at the North American Cartographic Information Society Annual Meeting (NACIS '22)*.

Presentations

- 2022 **Reyna, A.** & Powell, J. (2022, July). Applied Machine Learning to Detect Risk of Illegal Leadership Turnover. *Presented at Summer Undergraduate Research Poster Showcase '22, University of Central Florida*.

- Reyna, A.**, Soubai, A., & Wisniewski, P. (2022, March). Comparative Analysis between TextRank and LexRank: Testing Perceived Utility of Text Summarization Models for Data Annotators. *Presented at Student Research Week '22, University of Central Florida.*
- 2021 **Reyna, A.**, Sharpless, C., Dacre, P., & research team. (2021, March). Adolescent Online Safety: Expanding the Knowledge Base and Developing Machine Learning Algorithms. *Presented at Student Research Week '21, University of Central Florida.*

Awards and Honors

- 2022 **Senior Scholar**, UCF School of Politics, Security, and International Affairs
Summer Undergraduate Research Fellowship, UCF Office of Undergraduate Research
- 2020 **Political Science Endowed Scholarship**, UCF School of Politics, Security, and International Affairs
Leader-in-Residence, Hispanic Association of Colleges and Universities
Excellence in Action Award, UCF Office of Diversity Education and Training
- 2019 **Burnett Honors Scholar**, Burnett Honors College
